

## **South Africa-Japan SATREPS Workshop on Ocean Dynamics**

25th of August, Seminar Room, Dept of Oceanography James Building  
University of Cape Town, Cape Town, South Africa

Contact: [Mathieu.Rouault@uct.ac.za](mailto:Mathieu.Rouault@uct.ac.za)

- 9:15 "Overview of the South Africa-Japan collaborative project SATREPS":  
Mathieu Rouault (South Africa)
- 9:30 "Interannual Variability of the Indonesian throughflow" by Motoki  
Nagura (Japan)
- 10:00 "Tidally generated nonhydrostatic wave trains in the Indonesian  
Seas" by Hidenori Aiki (Japan)
- 10:30 Tea break with the Dept of Oceanography and workshop participants
- 11:00 "Why climate models fail to capture the seasonal cycle in the eastern  
tropical Atlantic" by Ingo Richter (Japan)
- 11:30 "Development of SINTEX-F2 coupled general circulation model" by  
Wataru Sasaki (Japan)
- 12:00 "Introduction of an equatorial wave model and its application to the  
Indian Ocean Dipole" by Motoki Nagura (Japan)
- 12:30 Lunch at UCT
- 13:30 Japanese visitors will be at the Oceanography Dept to answer ques-  
tions from students, staff and researchers and meet interested par-  
ties.
